

21st February 2018

European Works Council of SAFRAN PRESS RELEASE

1ST MEETING IN BRUSSELS OF THE EUROPEAN REPRESENTATIVES OF SAFRAN AND ZODIAC

On 21st February at IndustriAll Europe's HQ in Brussels they exchanged on the consequences of the integration of Zodiac in Safran.

A meeting focused on the future.

The representatives took the initiative to meet in Brussels to know each other and to reflect together on the consequences of the extension of the EWC Safran to the new perimeter. Beyond the opportunity to get to know each other, the elected representatives of Safran EWC reflected on how to integrate their new colleagues into the European body, in particular, initially, through an observer status;

Safran EWC presented also its work program, initiated in 2017, on economic and social issues that are recurrent on the different sites of Safran and which seem to be shared by Zodiac.

The participants converged also on the issues they will have to focus regarding employment, transfers and common social standards. Lastly, they reiterated their commitment to maintaining Safran's real industrial and geographical scope, which includes the United Kingdom.

The EWC in its new configuration is determined to remain a key social player in the European social dialogue of Safran.
