

**Spain:** perfumery and cosmetics industry

UGT-FICA, CCOO and STANPA, the Spanish social partners in the Perfumery and Cosmetics Sector, have agreed on a guide of good practices regarding risk prevention measures in the perfumery and cosmetics sector in relation with COVID-19. This guide establishes common principles of informative, organizational and preventive character, which allow a recovery of the industrial activity in the cosmetic sector that assures the protection of the own and foreign workers against the COVID-19. Its content is, in any case, subject to the procedures established by the Ministry of Health and competent health authorities.
