

France: Airbus

On 26 March, the Airbus Group concluded an agreement supplementing the 20th March agreement which provided a set of common principles within the group, in the context of a partial pause of certain activities during the week of March 23 to 29, 2020. The addendum sets out how hours or days not worked during the week of 23 to 5 April 2020 will be recouped by the end of the year 2020 according to the needs defined by entity, by sector or by service.

It also defines the arrangements made for the gradual restart of activity according to the needs of the different sectors of the company, depending on the load that will be theirs by the end of 2020.

If necessary, special arrangements, at the discretion of each company, could be made for personnel who would be required to work during the period of lockdown.

The present arrangements cover only the weeks of the 23 March to 5 April 2020. The agreement states that they may be amended, in accordance with the provisions of the law in force in France.

Finally, the signatories reaffirm that they reserve the right to meet after the end of the COVID 19 epidemic, whether there is a need to consider additional measures to accompany a significant increase in activity until the end of 2020.
