

Putting Trade Union Power  
into European Batteries

***You deserve safe equipment  
– not broken bones.***

***Working Safely Around  
High-Speed Machinery***

**High-speed machines are needed  
in battery production, but they can cause accidents,  
injuries – even death.**

# Employers must:

Putting Trade Union Power  
into European Batteries

**Maintain Machines – Keep them safe or shut them down.**

Conduct regular maintenance and safety upgrades on all equipment workers use.

**Provide Training on Controls – Before we touch machines.**

Provide full training on how to safely operate every machine.

**Install Emergency Stops – They must work instantly.**

Ensure all machines have emergency stop systems that truly protect workers.

**Inspect and Improve – Don't wait for an accident.**

Perform regular safety checks and fix hazards immediately – not after someone gets hurt.

**Stronger together for safe jobs.  
Join your union today.  
Safer work starts with organised workers.**
